

Assignment Title: Local SEO Project for Small Business

Objective:

Students will understand and apply local SEO techniques to improve the online visibility of a small business (real or hypothetical) in Islamabad. They will perform tasks that mirror real-world SEO practices.

Assignment Outline:

1. Business Selection: Choose a small business located in Islamabad. It could be a café, bookstore, or any other local establishment. If students can't find a real business, they can create a hypothetical one.

2.Keyword Research: Identify and list 5-10 local keywords that potential customers might use to find the business online. For example, "best café in Islamabad" or "bookstore near NUML University."

3.Google Business Profile (Google My Business) Optimization:

Assume the role of a business owner and create a mock Google My Business listing. Include:

Business name

Address

Phone number

Business hours

Photos of the business or related visuals

Write a compelling business description using some of the keywords identified in the keyword research.

4. Local Citations: List 3-5 local directories or websites where the business should be listed to improve its local SEO. For each directory, explain why it is beneficial.

5. Content Creation: create 5-15 post or article that could be featured on the business's facebook and Instagram handles. The content should focus on a topic relevant to the business and incorporate local keywords. For example, "Top 5 Coffee Shops in Islamabad You Must Visit" or "How to Find the Best Bookstores Near NUML University."

6.Link Building: Identify 2-3 local businesses or community websites that would be good candidates for link-building opportunities. Explain how you would approach each for a backlink.

Submission Format:

Students should compile their work into a single document or presentation, making it easy to review each section. Provide a clear structure with headings for each task.

Solution: Local SEO Project for Small Business

Business Selection:

Business Name: Islamabad Delight Café

Location: Near NUML University Islamabad

Keyword Research:

Identified *Local* Keywords:
